The Power Tool
Unlocking the mystery of energy

HORIZON POWER

Learn how the appliances around your home use energy with Horizon Power's 'Power Tool' app.

Step one: Print this document and cut out the appliances along the dotted lines.

Step two: Download the app from the Google Play or App Store. You can access the app instantly and no login or password is needed.

Step three: Open the app and point the phone or device camera at one of the appliance images below. Watch as the appliances come to life and tell you their energy story.

Have fun sharing your new energy facts with your friends and family!
